

NOTICE OF PUBLIC MEETING

Sespe Creek Levee Improvements Project

What's Being Done?

The Ventura County Watershed Protection District (VCWPD) is conducting a public meeting to share information and receive input on the upcoming Sespe Creek Levee Improvements Project. The proposed project will rehabilitate the existing levee so that it can be accredited by the Federal Emergency Management Agency (FEMA) and prevent homes adjacent to the levee from being included in FEMA's designated 100-year floodplain.

Where is the Project Located?

The project is located along the existing Sespe Creek Levee between Highway 126 and Old Telegraph Road in Fillmore, California.

Why A Public Meeting?

The VCWPD would like to solicit public input regarding the range of preliminary design alternatives currently being considered for the levee improvements project. Receiving public input at this stage will assist the VCWPD in selecting the best design alternative. Once a specific project design is selected, the VCWPD will proceed with project planning and will prepare a California Environmental Quality Act (CEQA) document for subsequent public review and disclosure of potential environmental impacts associated with the levee improvements project.

When/Where Is The Meeting?

The meeting will be Thursday, **January 19, 2012** from 7:00 p.m. to 9:00 p.m., at Faith Community Church, 355 D Street, Fillmore.

Contacts

For more information, contact Kirk Norman P.E., Project Manager, at 805-654-2017, or Elizabeth Martinez, Environmental Planner, at 805-658-4374.

Thank you for your interest in this Watershed Protection District project!
